Expiration Date Shelf Life Statement

Complete Gaskets Solutions Inc. is a manufacture of quality gaskets, O-rings, and Seals. We manufacture numerous products in many different materials. Shelf storage life and expiration dates will vary. This is depending on material types, storage time and environment conditions. Conditions like air, humidity, temperature, and lighting can all effect the longevity of storage and expiration. Products can have degradation and continue to cure which can cause hardening and color changes.

All products are shipped with expiration dates. Please contact CGS™ for complete storage conditions as it pertains to individual products.
